$!$!$!$!$! ALERT $!$!$!$!$!
PleASE ATTEND
AN IMPORTANT MEETING OF THE DIABLO CANYON SAFETY
COMMITTEE (DCISC) WILL BE HELD FRIDAY, AUGUST 8th--
10 AM AT THE EMBASSY SUITES IN SLO.

The costs of alternatives to the current environmentally
destructive cooling policy at Diablo Canyon range from
$3-12 BILLION dollars and carry the caveat below.*

It is ratepayer money that will be used for this project,
with virtually no guarantees of accuracy and possible
additional environmental damage to complete any of the
proposed projects.

Today, Diablo Canyon accounts for the over 75% of
impingement and entrainment of marine life in California.
Yet impacts are not only financial and that is the reason
for the DCISC’s special meeting. Certain alternatives
could increase safety concerns and those safety-related
issues are the topic of the August 8th meeting.

Please attend this short but important meeting and ask
that your comments be included in the DCISC report--after
all, it’s our coast, our money and our lives at risk.
