Mr. Edward D. Halpin  
Senior Vice President and  
Chief Nuclear Officer  
Pacific Gas and Electric Company  
Diablo Canyon Power Plant  
P.O. Box 56, Mail Code 104/6  
Avila Beach, CA  93424

SUBJECT:  ISSUANCE OF ENVIRONMENTAL SCOPING SUMMARY REPORT  
ASSOCIATED WITH THE REVIEW OF THE DIABLO CANYON POWER  
PLANT, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION (CAC NOS.  
MF4019 AND MF4020)

Dear Mr. Halpin:

The U.S. Nuclear Regulatory Commission (NRC) conducted an environmental scoping process  
and solicited public comments to aid the NRC staff in determining the scope of the  
environmental review of the application for renewal of the operating licenses for Diablo Canyon  
Power Plant, Units 1 and 2 (DCPP). The original scoping process occurred from January 27 to  
April 12, 2010. The NRC staff reopened the scoping process from July 1 to August 31, 2015.  
The scoping process is the first step in the development of a DCPP-specific supplement to  
NUREG-1437, “Generic Environmental Impact Statement for License Renewal of Nuclear  
Plants” (Agencywide Documents Access and Management System (ADAMS) Accession  
Nos. ML13106A241, ML13106A242, and ML13106A244).

As part of the scoping process, the NRC staff held two sets of two public environmental scoping  
meetings, each, in San Luis Obispo, CA to solicit public input regarding the scope of the review.  
The first set of public meetings occurred on March 3, 2010, and the second set on August 5,  
2015. The NRC staff also received written comments by letter, e-mail, and through  
www.Regulations.gov. At the conclusion of the scoping process, the NRC staff prepared the  
enclosed environmental scoping summary report identifying comments received during the  
scoping periods. In accordance with Section 51.29(b) of Title 10 of the Code of Federal  
Regulations (10 CFR) the NRC staff will send a copy of the scoping summary report to all  
participants in the scoping process.

The transcripts of the two sets of public scoping meetings are available for public inspection via  
the NRC’s ADAMS from any personal or public computer, including the NRC Public Document  
Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville,  
Maryland 20852. The ADAMS Public Electronic Reading Room is accessible at  
http://www.nrc.gov/reading-rm/adams.html. The transcripts for the March 3, 2010 meetings are  
listed under ADAMS Accession Nos. ML100850376 (afternoon session) and ML100850388  
(evening session). The transcripts for the August 5, 2015 meetings are listed under ADAMS  
Accession Nos. ML15243A554 (afternoon session) and ML15243A558 (evening session).
Persons who encounter problems in accessing documents in ADAMS should contact the NRC's PDR reference staff by telephone at 1-800-397-4209 or 301-415-4737 or by e-mail at pdr.resource@nrc.gov.

If you have any questions concerning the NRC staff's environmental review of this license renewal application, please contact the project manager, Mr. Michael Wentzel, by phone at 301-415-6459 or by e-mail at michael.wentzel@nrc.gov.

Sincerely,

/RA/

James G. Danna, Chief
Environmental Review and Projects Branch
Division of License Renewal
Office of Nuclear Reactor Regulation

Docket Nos. 50-275 and 50-323

Enclosure:
As stated
